University of Idaho
Extension

Have you done everything you can to safeguard your family's financial future?

Do you have a plan to protect, distribute and transfer your assets? Do you want to increase your knowledge of estate planning and end-of-life issues? Do you want to learn how to safeguard your family's financial future?

A large proportion of Americans die without a will or an advance health care directive. Numerous people just never get around to making specific legal arrangements to protect their survivors. Some people don't want to discuss end-of-life issues with family members. Many people do not make arrangements because they believe:

- The property will automatically pass on to heirs without complications
- Assets have to be of a certain size before the heirs will be affected by a tax liability
- Falsely believe estate planning is not important for young parents
- Costs of preparing wills and important documents is too expensive to make it worthwhile

"Secure Your Future" will help you take major steps to safeguard your family's inheritance. The program teaches individuals about the importance of evaluating legal matters related to later-life issues.

There will be no sales or marketing of products or services.

Class 1: Organize Your Important Papers

Participants will learn the kinds of personal information to gather, organize and store so that family members can easily access them.

Instructor: Beverly Healy, Extension Educator

Advance Health Care Directives

Understand the importance of Advance Directives: Living Will and Durable Power of Attorney. Instructor: Kim Martz of A Better Way Coalition

Class 2: Prepare: Advice from an Attorney

Participants will increase their knowledge of estate planning and end-of-life issues – wills, probate, trusts and how property is titled.

Taught by attorney Allan Bosch, Boise .

June 1 and 8 - Boise
